KleenSpec® 790
Disposable Vaginal Specula
Illumination System

- Superior visualization: advanced LED light source provides better visualization of exam area by supplying brighter, whiter light where it is needed
- Cordless and rechargeable: no cord to get in the way or break during procedures, continuous on-time of 80 minutes, recharge time of 6 hours, and lithium-ion battery technology; easily fits into vaginal speculum
- Automatic On/Off: no more hassle with turning unit on and off; when Illumination System is inserted into vaginal speculum, it is automatically illuminated, and once it is removed, light goes off
- Versatility: Illumination System can be used as an all-purpose light source on its own as well as with vaginal speculum
- Convenient: no cords to clean; much less heat than traditional lamps

MIDMARK®

Digital IQecg™

Makes your job easier with a range of reviewing and editing tools to help increase productivity and efficiency. At the touch of a button, you can capture an abnormal ECG as it appears on screen, enhance the diagnosis with tools like zoom and electronic calipers, quickly edit statements, and perform serial comparison.
Features include:

- Lightweight, portable design, weighing less than 11 oz
- View and monitor live, 12-lead ECG in selectable formats on screen
- Interpret and analyze data for neonate, pediatric, and adult patients via the Midmark 12-lead Resting Electrocardiogram Analysis Program
- Review and edit ECG results on screen with free text or customizable quick-edit statements
- Perform serial comparison with overlay of up to 4 ECG tests
- Save time and reduce data-entry errors by populating patient information directly from your EHR/EMR software
- Facilitate paperless office strategy: eliminate costs of thermal paper and the hassles of scanning and filing patient charts

Discover Why More Than 50% Of Your Patients Would Benefit From In-office DXA Scanning!

Improved Patient Care.
Increased Revenue Opportunities.

Enhance your Primary Care Physician practice with the Discovery™ bone densitometry system from Hologic. DXA scanning is a vital link for many patients as determining the status of an individual's bone mineral density (BMD) can be a critical factor for proper diagnosis and treatment.

Patients at Risk in Your Practice:

- All postmenopausal women.
- Patient taking prescribed drugs that induce bone loss (proton pump inhibitors, serotonin reuptake inhibitors, steroids, and tamoxifen).
- Women aged 65 and over.
- Men past the age of 70 or men under 70 whom are at risk of osteoporosis.

In-office bone densitometry can be a dynamic solution to lagging financials. It could afford you the possibility of an exceptional return on investment (ROI) and provide an opportunity for you to grow your practice through stabilized reimbursement to achieve long-term success.*

Hologic's Discovery systems can evaluate your patients for osteoporosis, obesity, and cardiovascular risk.

Learn how bone densitometry can impact your practice today by calling your Henry Schein representative.

Patient-centered care.
It's time.

Streamline your workflow and save valuable time so you can spend more time caring for your patients. The Midmark 625 Barrier-Free® Exam Table with IQscale™ and IQhub™ makes it all possible. Featuring an integrated digital scale, the 625 weighs patients quickly, efficiently and discreetly while allowing you to run the scale functions and send the data to the EMR.

IQhub™ lets you connect other digital diagnostic devices at the point of care, including the IQecg® and IQspiro®. The diagnostic data is then ported directly through the IQhub™ to your computer with speed and accuracy.

Purchase an eligible 625 September 3, 2013 – December 20, 2013, and get up to $800 back!

For more information, call 866-865-8748 or visit midmark.com/ScheinNovSale.

Do you know what your patients are made of?

Find out with the new seca mBCA
(medical Body Composition Analyzer)!

Transform the way you evaluate and monitor your patients. One 20 second non-invasive test provides all of the following definitive measurements:

- % of body fat
- Total body fat
- Lean body mass
- Total body water
- Extracellular fluid
- Intracellular fluid
- Segmental lean mass
- Resting energy expenditure/ basal metabolic rate

Precise Reliability is enhanced by the (16) multi-tactile electrodes integrated in the standing aid. This helps to ensure that the extensively validated accuracy of the mBCA is repeatable.

Ergonomic and user-friendly: The weighing platform was designed for comfortable, safe access and measurement of all patients weighing up to 660 lbs.

Efficient wireless technology facilitates a seamless interface to Electronic Medical Records (EMR) systems.

Assurance 50® "Fade-Resistant" Papers
Single Channel, Red Grid
Unique line of thermal recording media. Look and feel is similar to standard thermal charts, but difference is in acid-free base paper and patented chemical thermal coatings. Combination of these 2 elements works to deliver 50 years of ECG image life without worry or fading. Thermal chart contaminants such as UV light, PVC, alcohol, adhesive tape, and electrode creams are no longer of concern. No special care or handling is required. Guarantee clear, indelible original records, year after year.

CareCenter MD™
This multimodality PC-based wireless diagnostic workstation with both PC ECG and PC stress test modalities is designed to make your workflow much easier. A scalable workstation with one platform for both ECG and stress test means no re-entry of patient data. Wireless data acquisition means test safety, comfort, and confidence for your patients and staff. The modern, flexible user interface uses the same simple, one-button navigation for all modalities and provides access to complete test data across the network; CareCenter MD Online allows for remote live consultations—only from Cardiac Science. In addition, a single, shared patient database means results are available throughout your network, with or without an electronic medical records system (EMR). Modify and save screen views on the fly. Select the report format that works best for you. Save, review, and combine permanent patient records in your EMR via HeartCentrix or HL7.

Alere™ Cholestech LDX® System
Complete Lipid Profile, Glucose

Lab-accurate lipid profile, glucose, ALT, AST, and hs-CRP results in about 5 minutes* from a simple fingerstick. Allows provider to get results while patient is still in office—provider can counsel and intervene face-to-face. This improves patient compliance and increases control and management of heart disease and diabetes. Reimbursable by Medicare and most private payers.

- CLIA waived**
- Procedure saves time and enhances productivity
- Small, tough, and portable
- Eliminates anxiety of venipuncture; requires only a fingerstick
- On-the-spot adjustment of therapy and improved patient compliance
- Accuracy comparable to laboratory tests
- Saves time: fewer follow-up visits required
- Enhances compliance through teachable moments between healthcare providers and patients

Accu-Stream 360 Cans
3½-oz Ethyl Chloride Can
Accu-Stream 360 cans offer an innovative delivery system for Gebauer's Ethyl Chloride. The new actuator is a one-touch system that allows customers to dispense ethyl chloride from any angle—even upside down—with extreme accuracy. There is also a safety locking ring that will prevent accidental dispensing during shipping and office storage.

First, Best & Always

You prefer perfection,

{ and we're happy to keep it that way. }

Podiatrists and Orthopedists across the U.S. and Canada keep choosing Gebauer's Ethyl Chloride® as a cost-effective, preferred anesthetic. You continue to make the world's first topical anesthetic skin refrigerant the most trusted.

We respect that trust, so we're staying true to the perfect original formula.

Thank you for your continued support.

Aaron 940™

Designed and engineered to be the most reliable and durable desiccator available today, the unit's life is prolonged by incorporating the latest in chip technology and reducing the number of internal parts, thereby generating less internal heat. Postprocedure and long-term cleanup are simplified by its nonabsorbing, nonstaining, high-impact plastic case.
It continuously monitors every aspect of the unit's output. At the sign of any problem, the machine instantly disables the output and displays the appropriate error code on the display. The Bovie® 3-Button Handpiece is better designed inside and out. The basic function of a 3-button handpiece is to allow the user to control power up/down and to activate the high-frequency desiccator.
The Aaron 940™ has a technology advantage right in the handpiece: a superbly engineered collet that's even gold-plated for superior conductivity. The collet is attached to the circuit board and the entire handpiece is encapsulated and formed in a high-tech polymer that combines comfort with a sure grip. The buttons on the handpiece have been designed for superior tactile feel and comfort.

- Dimensions: 15.9 cm (6.3") H x 22.2 cm (9") W x 11.4 cm (4.5") D
- Weight: ≤1.4 kg (≤3 lb)
- Output Power: To 40 watts (0–10 watts in 1/10th watt increments on both mono and bipolar)
- Output Frequency: 550 kHz
- Line Frequency: 50–60 Hz
- Warranty: 2 years

Flu seasons are unpredictable, using a safety hypodermic needle shouldn't be.

With 3 ways to activate and a broader range of sizes than most other brands, SurGuard®3 is the industry's most adaptable safety needle. Add separate thumb and finger grips, unequalled sharpness,* and competitive pricing, and you'll understand why we say SurGuard®3 is the one needle that fits *every* clinician's style.

Plus, SurGuard®3 has the sharpest needles among major brands tested.*

- 10% sharper than similar needles from other leading brands.
- More comfortable injections for patients.

Bottom line: No matter what you're looking for in a needle, you're looking for SurGuard®3.

For more information, contact your Henry Schein Representative

*Independent Lab Testing: Terumo needles, on average, sharpest among brands tested.

INCREASE REVENUE $20K PER MONTH THROUGH OBESITY CARE UNDER THE AFFORDABLE CARE ACT

Typical Insurance Patient

Typical CMWL Obese Patient: Preventive Services Under the Affordable Care Act

NO DEDUCTIBLE NO CO-PAY

With preventive services being a cornerstone of the Affordable Care Act, a 15 minute obesity preventive visit will generate, on average, $172 in net revenue with no deductible or co-payment. A practice looking to expand and increase revenue no longer needs to generate more new patients to their practice but can focus on the obese patients in their existing practice that they see daily for the 53 diseases related to obesity including hypertension, type II diabetes and cardiac disease.
